WELCOME

Thank you for purchasing the Video Clip HD.

The VC-HD is one of a range of products we offer specific to the heritage marketplace. We are confident that we have other products you will find useful and look forward to hearing from you again soon.

1.CONVERTING VIDEO CONTENT

If you do not already have compatible media files you will need to use a media converter in order to take your current files, and turn them into a compatible filetype which is supported by the VC-HD.

We recomend using a free media converter called 'Format Factory', this can be downloaded for free here:

http://www.pcfreetime.com/

It's an easy bit of software to use and is able to convert almost all filetypes into supported media.
