

In-Line Speaker Volume Control with 3W Amplifier

1 Volume Changer
Easily adjust the volume level of your connected device. Turn left to decrease and right to increase.

2 Fixing Wings
Securely mount the Volume Control using in-built fixing wings (supplied with fixing screws).

Connections

3 3.5mm Jack
Connect to your chosen device using the 3.5mm Jack.

4 Bear Ends
Connect the Bear Ends into a Speaker (Stereo left: Black - Stereo right: White).

5 USB Power
Power the Volume Control device via USB.

Technical Information

Works perfectly with our range of VideoClip's. Simply plug one end into your audio out port, and the other into your speakers.

Please call blackbox-av if you require customisation of these connections.
