43" Portable Outdoor Battery Powered Display

- 1 Lightweight & Portable**
The display can be easily moved to a different location thanks to the rugged castor wheels.
 - 2 Fully Secured**
Once in position, lock into place via the in-built locking bar. Further secure by using a padlock.
 - 3 Robust Enclosure**
Utilising a tempered glass front panel and moulded polymer rear, the display offers maximum protection.
 - 4 High Brightness Panel**
The 700cd/m² IPS Panel makes the display three times brighter than a domestic TV. Brightness is altered depending on its surrounding ambient light.
- ✓ Battery Powered**
The integrated lithium polymer battery provides 14 hours of running time. An on-screen charge indicator will tell you the battery charge.
 - ✓ Plug and Play**
Load content onto a USB, insert into the unit and your content will transfer onto the internal memory. Once complete, content will play in a continuous loop.
 - ✓ Remote CMS Upgrade**
Access your display remotely via LAN or WiFi with the Network Upgrade. Allows the management of content via an online CMS system.
